30kw three-phase energy storage battery

Overview

What is a 40kWh energy storage battery system?

A 40kWh energy storage battery system is an all-in-one solution that combines 40kWh of LiFePO₄ lithium batteries with an 8kW hybrid inverter. This system offers advantages such as large capacity, high power, small self-discharge, and good temperature resistance.

What does se 30kHb-T3 stand for?

· Specifications are subject to change without advanced notice. The Three Phase Inverter 30KW (SE 30KHB-T3) by Shenzhen Senergy Technology Co., Ltd. is designed to deliver exceptional performance, reliability, and efficiency for commercial and industrial solar energy systems.

How much power can a single battery port provide?

①For single battery port connected, the maximum charge power is 25,500W. When two ports are used, the power can reach 45,000W. · The range of output voltage and frequency may vary depending on different grid codes. · Specifications are subject to change without advanced notice.
