# Can European portable power banks

## Overview

---

Do you need a power bank when traveling to Europe?

But while you are on the road exploring, there are not many charging outlets or places where you can charge your phone. So, a power bank comes in very handy! In case your phone or tablet runs out of battery, you can instantly recharge it with the power bank. What makes a power bank best for traveling to Europe?

.

Can power banks be used on European flights?

Battery capacity limits dictate how power banks can be used on European flights. Power banks with a capacity up to 100 watt-hours (Wh) are generally permitted in carry-on luggage. According to the EASA regulations, devices between 100 Wh and 160 Wh require prior approval from the airline.

Are portable power banks good for traveling?

Portable power banks are highly recommended for traveling because they can be easily carried. However, if there is a power outage at home then the same power banks can be used as an alternative source of power. They will make sure that your phone remains charged and you communicate easily.

What are the power bank rules across European airlines?

By following these steps, you will gather comprehensive and reliable information about power bank rules across European airlines. Passengers can carry power banks under 100Wh on airplanes in Europe without restriction. For those between 100Wh and 160Wh, airline approval is needed.

Can you use a power bank on a plane?

Usage during the flight is generally allowed but varies by airline. Most airlines permit passengers to charge electronic devices using power banks as long as

they comply with the battery capacity limits. However, during turbulence or safety procedures, the usage may be restricted.

Are power banks reliable?

Yes, power banks are definitely reliable. Within some time, they are able to fully charge your phones, even tablets, and other small devices. However, you may come across power banks that take longer in recharging the phones or devices but most of them have a high-recharging speed. Can power banks be used at home?
