Can I bring tool batteries to San Diego

Overview

Recycle your old batteries for FREE in San Diego. We accept all battery types, including lithium, rechargeable, button cell, and more, for free! Can batteries be disposed of in San Diego?

According to state law, batteries and other types of universal waste must be handled properly and are not allowed to be disposed of at the solid waste landfill. The City of San Diego offers eight (8) one-day battery and bulb collection events in the spring and fall. Please see the link below for upcoming event dates. View event locations and dates.

Where can I drop off a battery in San Diego?

View drop-off locations The City of San Diego accepts all types of home use and automotive batteries at their HHW Transfer Facility by appointment only. Store used batteries sorted by type (alkaline, lithium, nickel-cadmium, etc.) in a safe, dry place and out of the reach of children. Use zip-lock bags or a plastic container with a lid.

Are lithium batteries safe to ship?

Improperly packaged lithium batteries can ignite, causing fires that are difficult to extinguish and pose a significant risk to the safety of transportation workers and the general public. Other battery types, such as alkaline or nickel-metal hydride (NiMH), are generally considered safer to ship.

Are batteries considered hazardous waste in California?

All types of batteries are considered hazardous waste in California. Batteries may contain metals including cadmium, lead, lithium, mercury, nickel, silver and zinc. According to state law, batteries and other types of universal waste must be handled properly and are not allowed to be disposed of at the solid waste landfill.

How many battery and bulb collection events are there in San Diego?

The City of San Diego offers eight (8) one-day battery and bulb collection events in the spring and fall. Please see the link below for upcoming event dates. View event locations and dates. There are other options to recycle household batteries near you.

Can I bring a lithium battery on a plane?

Batteries installed in devices must be protected from accidental activation. External battery chargers that don't require electricity and spare, uninstalled lithium batteries must be packed in a carry-on bag. For tools powered by lithium batteries, see FAA regulations. For more prohibited items, please go to the 'What Can I Bring?

' page.
