Eastern Europe Mobile Generator Station

Overview

Who is EMSA generator?

Emsa Generator, one of the few uninterrupted diesel generator manufacturers in Turkey, expands its international market with agreements in East Europe just like other countries around the world. Emsa Generator strengthened its name in the Romanian market in 2021 with the sales of 700 kVA twin generator sets to the largest asphalt centre of Romania.

How reliable gensets for mobile power supply can be provided?

Reliable gensets for mobile power supply can be provided for short and long time periods. MITTES offers a large range of accessories like Mobile Loadbanks, Mobile Tanks and a lot more. MITTES engineering GmbH specialises in the development, the construction and the supply of plants for energy supply.

Why should you choose EMSA generator?

Emsa Generator that does not compromise quality at every stage of generator and alternator manufacturing and also deserve appreciation with its sensitivity against the environmental and human health issues is frequently preferred by customers as it is an assuring company due to accessibility provided by the company at all stages of sales.
