

Solar Storage Container Solutions

Jamaica Energy Storage Export Enterprise

Overview

How can battery energy storage help Jamaica?

Battery energy storage systems (BESS) are now emerging as a cornerstone technology to address these challenges—helping Jamaica stabilize its grid, unlock more renewable energy, and reduce electricity costs for both consumers and businesses. The country's electricity cost can reach as high as \$0.32 per kilowatt-hour, far above global averages.

Why is energy storage important in Jamaica?

Jamaica is committed to reducing its dependence on imported fossil fuels. The country's National Energy Policy sets an ambitious target: 50% of electricity from renewable sources by 2037. Energy storage plays a critical role in achieving this target. Key policy support includes:

Will JPS build a solar power plant in Jamaica?

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant and a battery storage facility, starting this month. The renewable energy facility will replace JPS's aged Hunts Bay.

What is happening in Jamaica's energy sector?

Jamaica's energy sector is dominated by relatively old and inefficient infrastructure that are now being prioritized for modernization and or replacement. Aged electricity generating plants and hydro skimming refinery technology are scheduled to be replaced and or upgraded respectively.

What are the different types of energy opportunities in Jamaica?

Select opportunities exist in renewable fuels, electricity generation from renewable sources, electricity generation from conventional fuels, electricity grid management, including energy storage and also energy efficiency and conservation programmes. The following are frequently asked questions

concerning Jamaica's energy sector.

Who is the largest electricity supplier in Jamaica?

The JPSCO is the largest supplier of electricity to the grid. The company is 80% privatized (20% owned by the Government of Jamaica). The other suppliers are:

4How much generation capacity exists and what does the Jamaican economy consume?

5How much power is the government seeking to add to the grid from renewable energy?

Jamaica Energy Storage Export Enterprise
