Overview

Who makes SMA Solar inverters?

SMA Solar Technology AG is a German company founded by a team from the University of Kassel. At present SMA employs more than 5,000 people and gets more than 1 billion dollars of revenue each year. The company makes inverters for all applications. There are SMA models for residential, commercial, utility and even off-grid projects.

How many solar inverters did SMA sell in 2023?

Overall shipments in 2023 were excellent - 20.5GW, compared to 12.2 GW in 2022. This was largely due to the firm's booming Large Scale & Project Solutions segment. Overall, SMA has shipped more than 130 GW of solar inverter capacity globally to date. The Sunny Boy and Sunny Tripower product lines form the core of SMA's home offerings.

Are SMA Solar inverters available in Australia?

You can compare specifications and estimated pricing of SMA residential solar products available in Australia with models from a bunch of other brands on the SolarQuotes inverter comparison table. SMA Sunny Boy and Tripower inverters originally came with a standard 5 year warranty.

Are SMA Solar inverters expensive?

SMA solar inverters aren't in the list of the most affordable, but you can save some money by opting for an entry-level model. You still get the same quality, warranty and reliability, but may miss some of the more advanced features.
