

Solar Storage Container Solutions

Swiss Solar System

Overview

With the passage of the Federal Act on a Secure Electricity Supply from Renewable Energy Sources, approved by public referendum in June 2024, the country is implementing sweeping reforms designed to accelerate the adoption of photovoltaic (PV) systems. Can solar energy be used in Switzerland?

Although the proportion of solar heat to overall consumption in Switzerland is still relatively low, its potential is considerable. If all existing buildings were to be optimally improved in terms of energy efficiency, it would be possible to meet the heating requirements of all Switzerland's households through the use of solar collectors.

Who is Swiss Solar AG?

SWISS SOLAR AG – is a leading and globally active technology company. It is specialized in innovative systems and production of solar cells and solar modules. From simple beginnings, SWISS SOLAR AG has expanded globally. We now sell our products in more than 100 countries. IBEX 132MWT-GR. IBEX 144MHC-Ei. IBEX 144BF-MHC. IBEX 132MHC-Ei.

Who makes Swiss solar modules?

SSWISS GROUP AG manufactures high-quality solar modules and is leading and globally active technology company. SWISS solar modules are engineered in Switzerland and meet the highest quality standards. As an internationally recognized premium brand.

What makes Swiss solar unique?

Swiss Solar products are based on innovative technologies: we produce only monocrystalline modules from 9BB to 16BB. Our strategy Swiss Solar strives to expand worldwide to provide customers with quick access to our services and products.

Who is 3S Swiss solar solutions?

For over two decades, 3S Swiss Solar Solutions has been at the forefront of the solar energy revolution. Their journey has been characterized by a relentless pursuit of innovation in photovoltaic technology, especially in the realm of Building-Integrated Photovoltaics (BIPV).

Why should you choose Swiss solar?

Swiss Solar strives to expand worldwide to provide customers with quick access to our services and products. We constantly increase investments in research and development of new products to offer customers only state-of-the-art solutions that will enable them to implement projects with the lowest LCOE. Our future

Swiss Solar System

Non-recurrent remuneration for large-scale photovoltaic systems

With the amendments to the Energy Act adopted on 30 September 2022 (urgent measures for the short-term provision of a secure electricity supply in winter, solar offensive), the Swiss ...

3S Photovoltaics achieves the SWISS LABEL

Solarmodule aus der Produktion im bernischen Lyss sind die perfekte Synthese aus robuster, wetterfester Gebäudehülle und effizienter, umweltfreundlicher Stromproduktion. 3S Swiss ...

Swiss startup inaugurates removable PV plant on ...

Apr 25, 2025 · Swiss startup Sun-Ways says it has activated what it calls the world's first removable solar plant on active rail tracks, with passenger trains ...
